

GARBAGE BIN

CHANG-1.2

REACTIVE

1—SWING YOU HAND

2—TAPPING IT

-How you robot change?

Charge, Storage garbage

-How your robot's opportunities change?

Shake the trash bin/ Charging by Stroking the trash bin / Recognize gestures

-How your robot's behaviors change?

Open/Close

-How your robot's interactions change?

A serious gesture means different order.

-How your robot's relationships change?

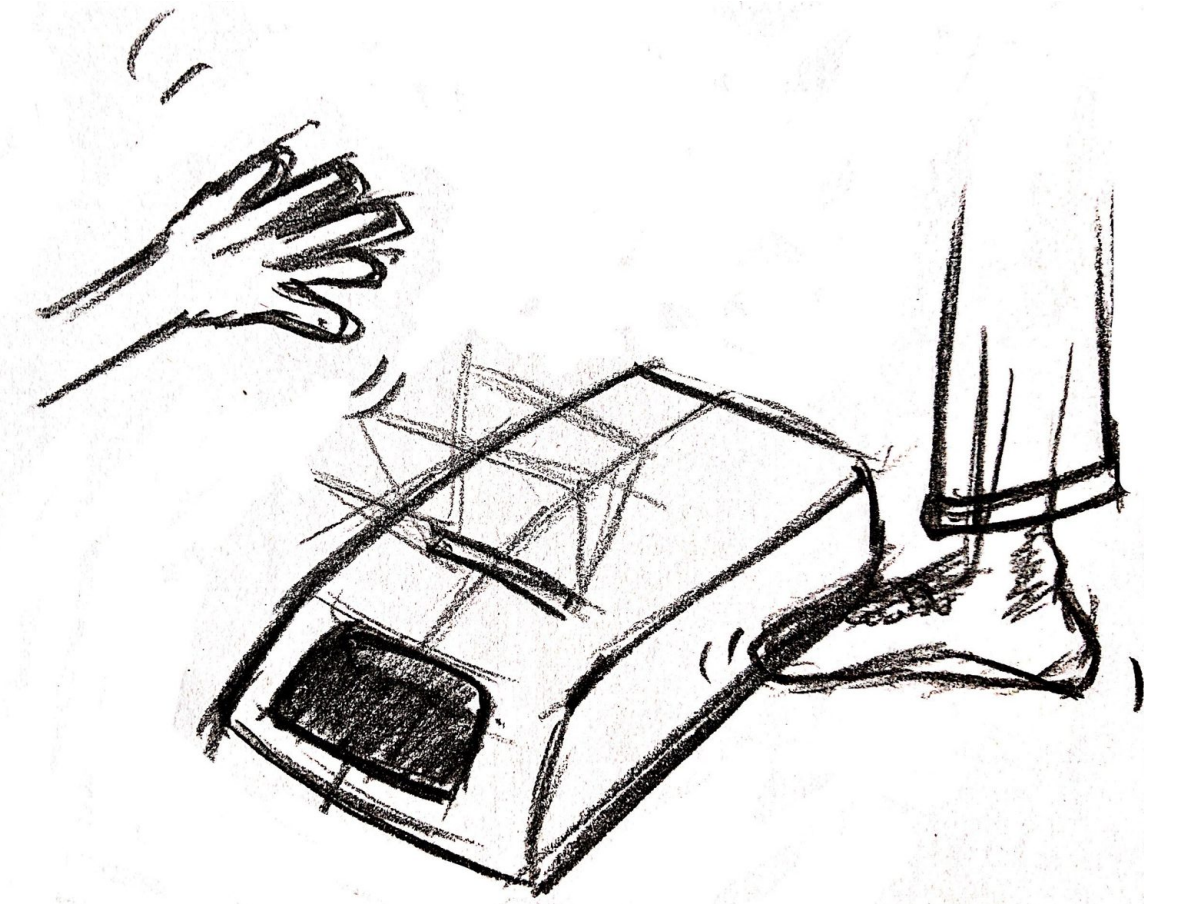

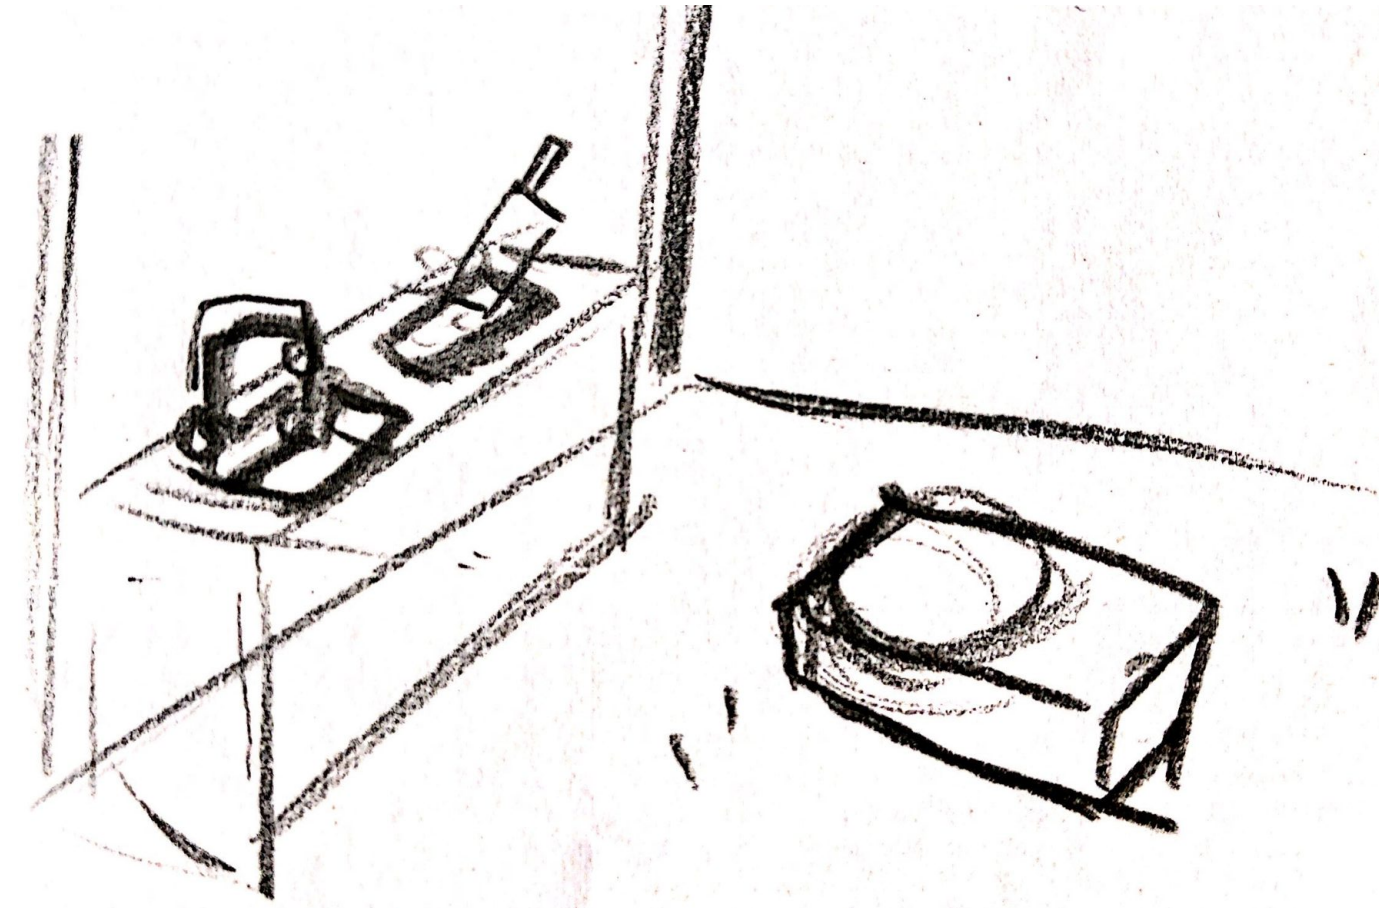

still a garbage

-How your and people's perceptions of your robot changes?

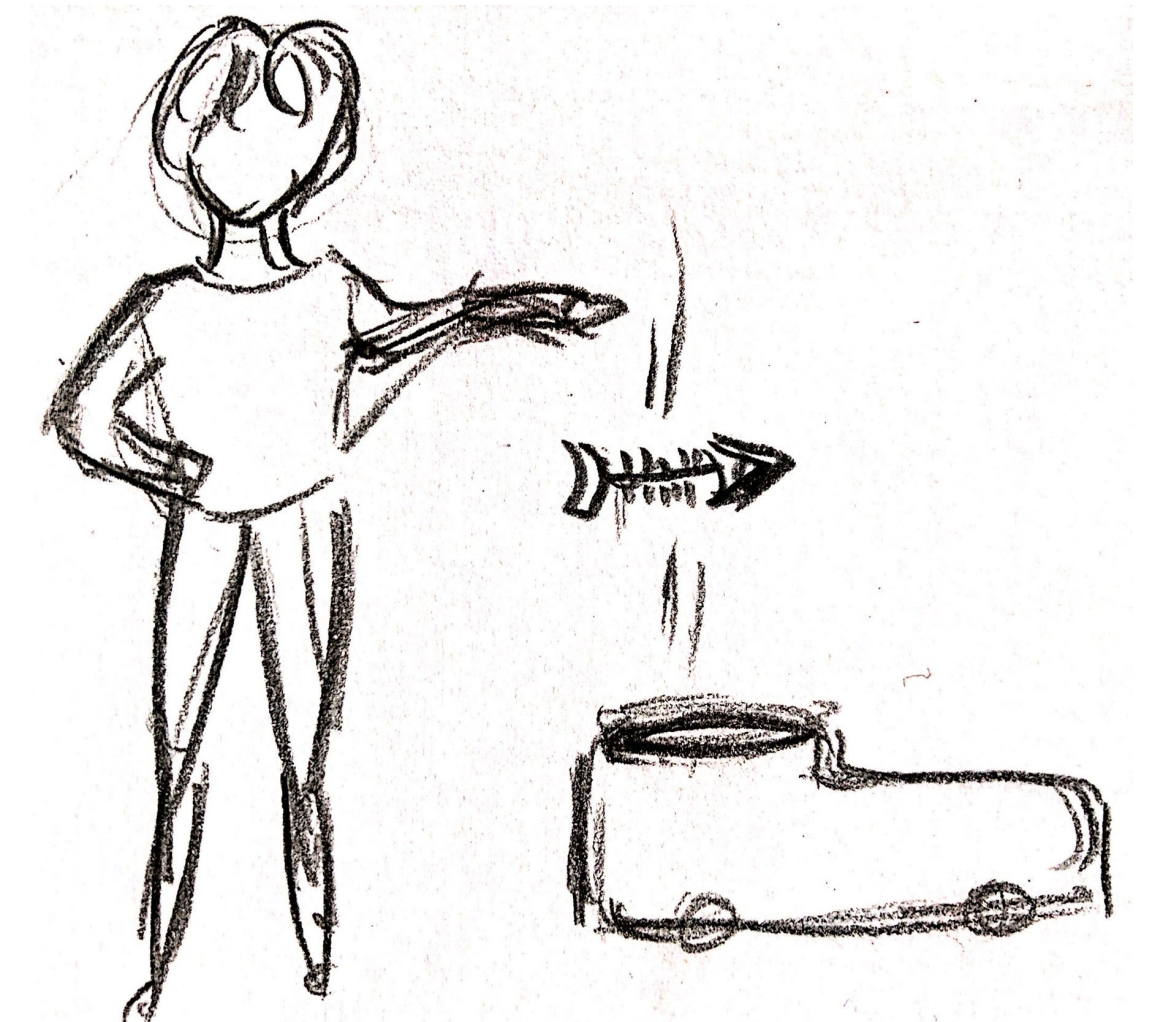

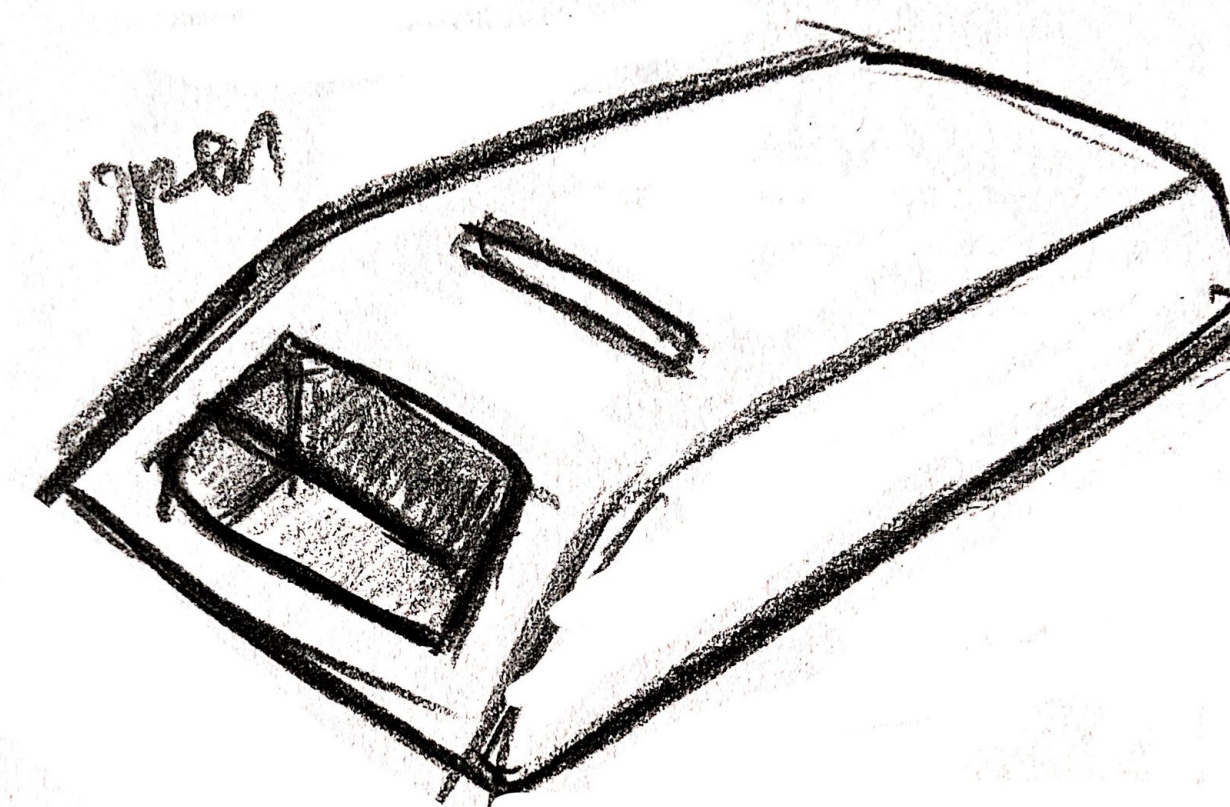

Basic reaction, but still a trash bin

-the physical/interactive/economic/social/etc implications of your robot's changes.

Avoid touching the trash can with hands to maintain hygiene

INTERACTIVE

DETECT TRASH AND REMIND PEOPLE

-How you robot change?

Identify function, Can think simple

-How your robot's opportunities change?

**detect shape of garbage, identify different type of trash /
provide trash bag/help people package it,**

-How your robot's behaviors change?

Eye

-How your robot's interactions change?

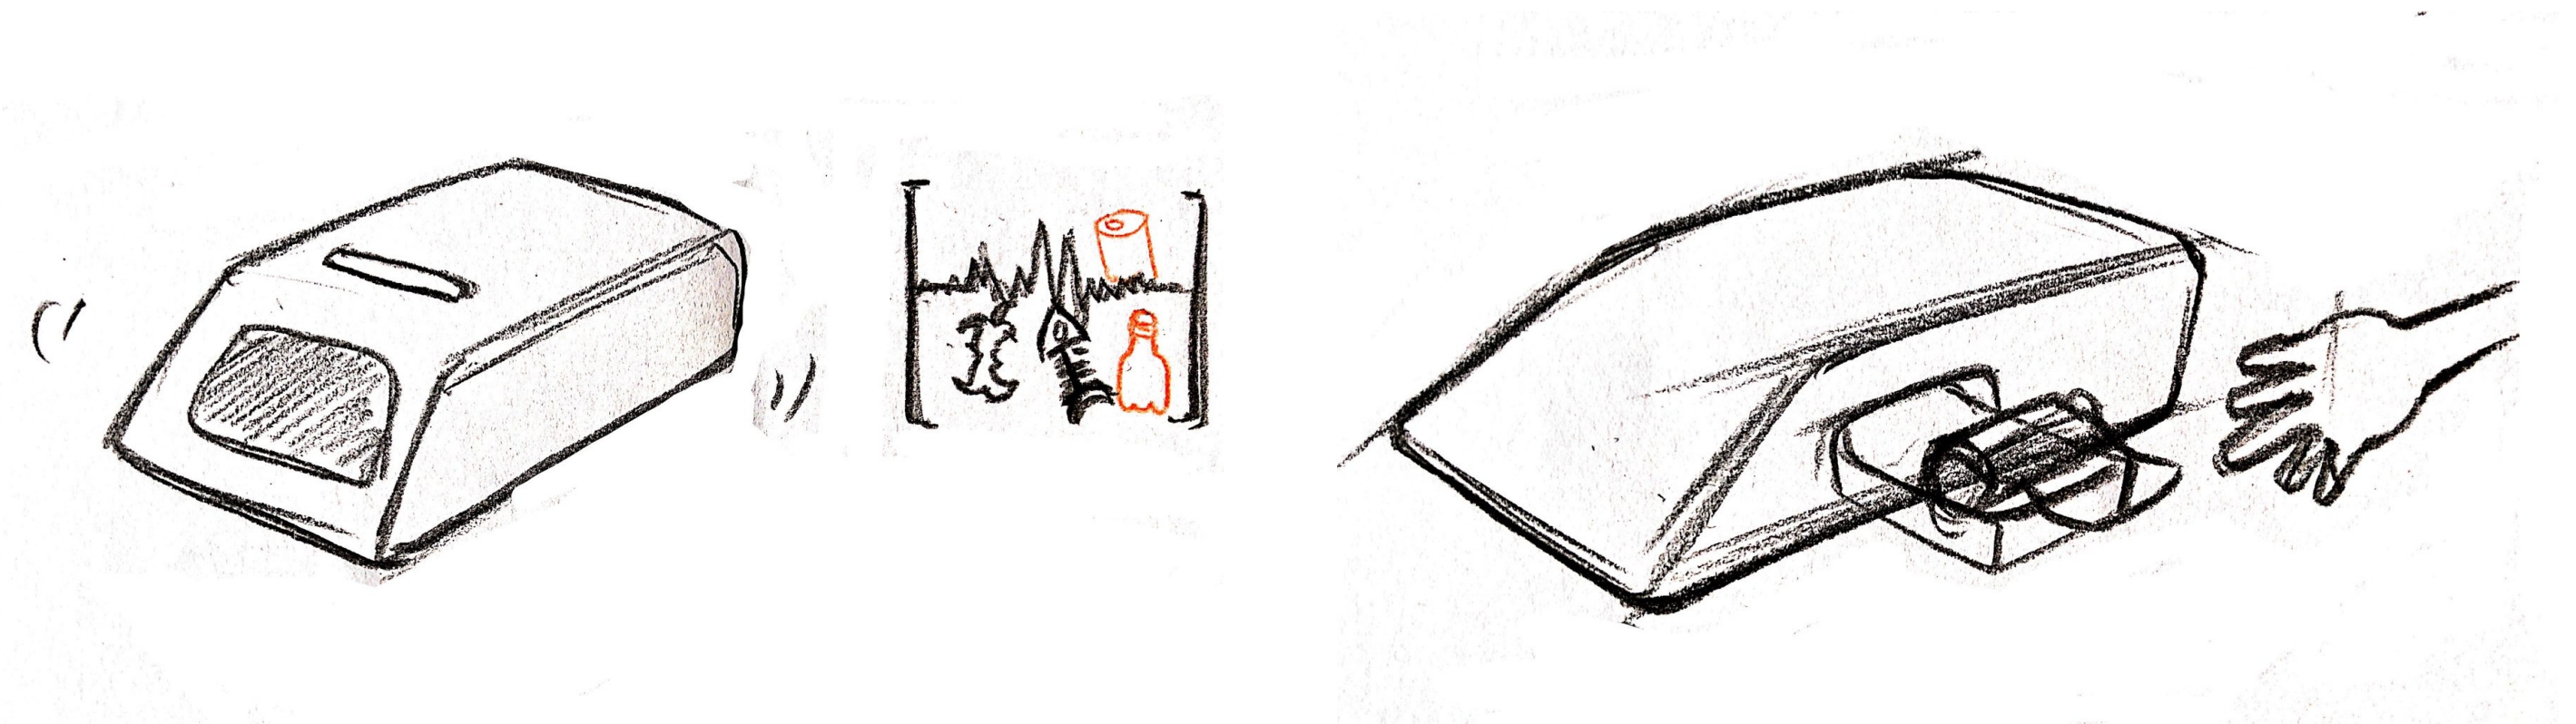

Make a sound to remind people to recycle garbage

-How your robot's relationships change?

-How your and people's perceptions of your robot changes?

-the physical/interactive/economic/social/etc implications of your
robot's changes.

**Garbage recycling device to reduce random disposal of
plastic and metal garbage**

ADAPTIVE

SELF-SUPPLY

-How you robot change?

Go to other room find garbage. After detect garbage, Converting kitchen waste,

-How your robot's opportunities change?

Detection of rotten kitchen waste /Break it by Mincing machine/

-How your robot's behaviors change?

Detection of rotten kitchen waste /Break it by Mincing machine/

-How your robot's interactions change?

Pull the over-eaten garbage into the flower pot , Finish all things , It can Self-cleaning/ Converting kitchen waste to power

-How your robot's relationships change?

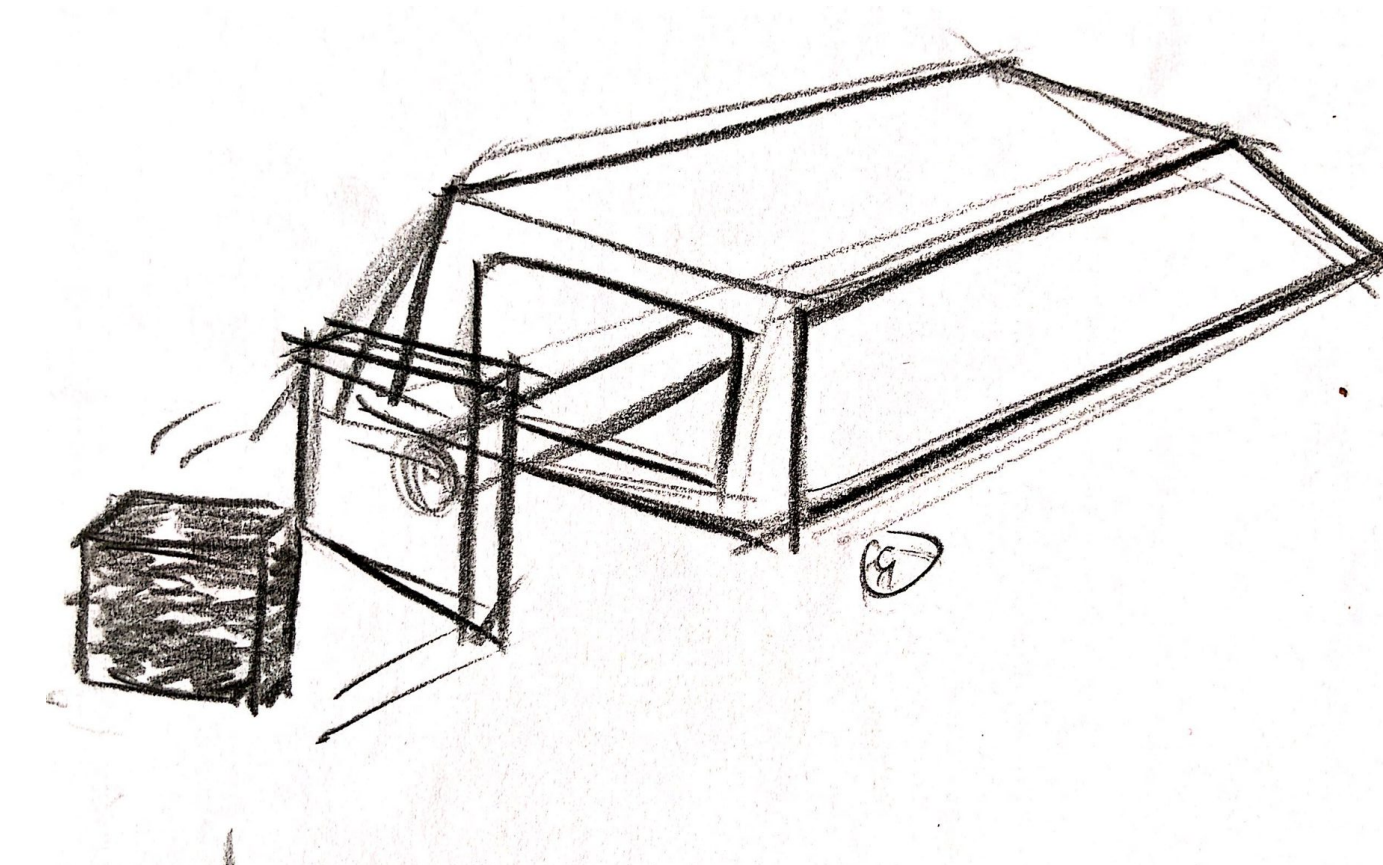

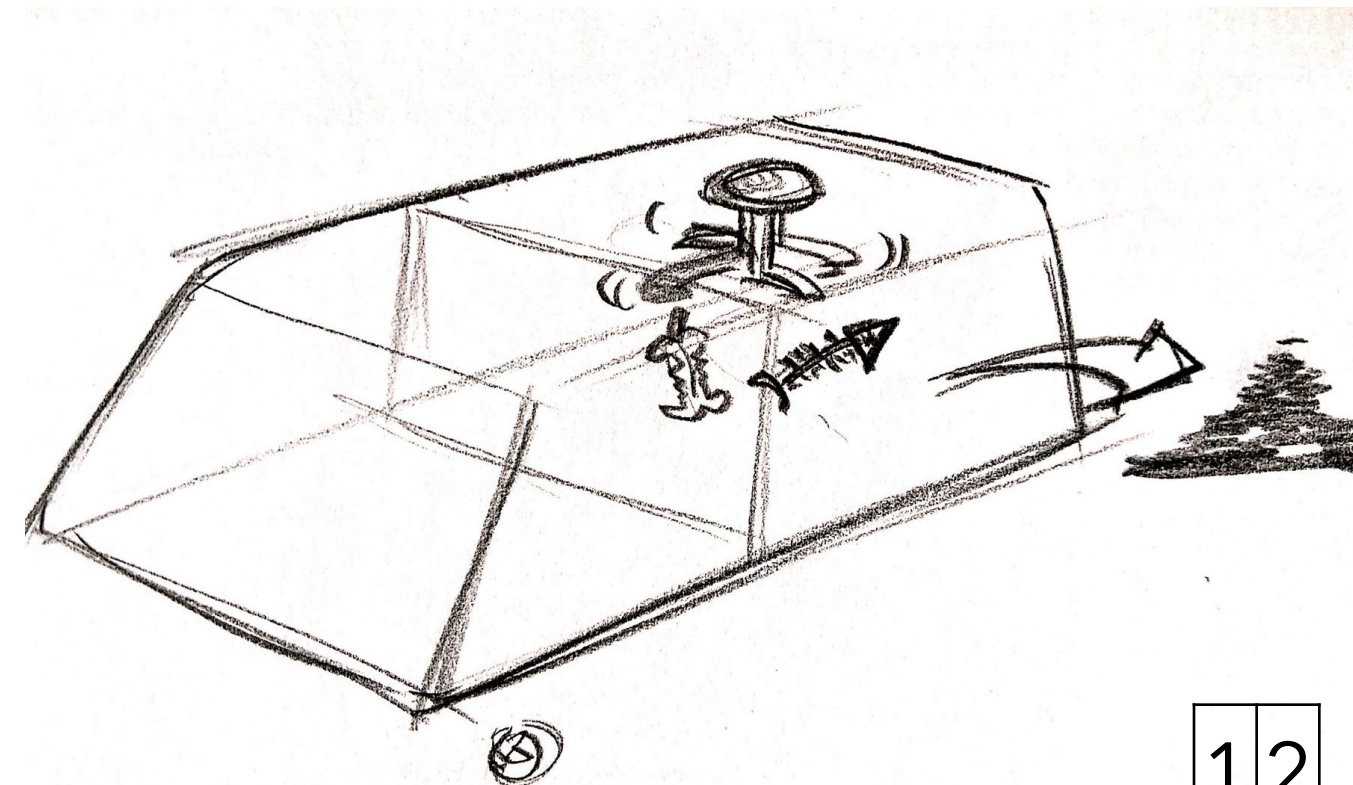

Agricultural fertilizer application robot

-How your and people's perceptions of your robot changes?

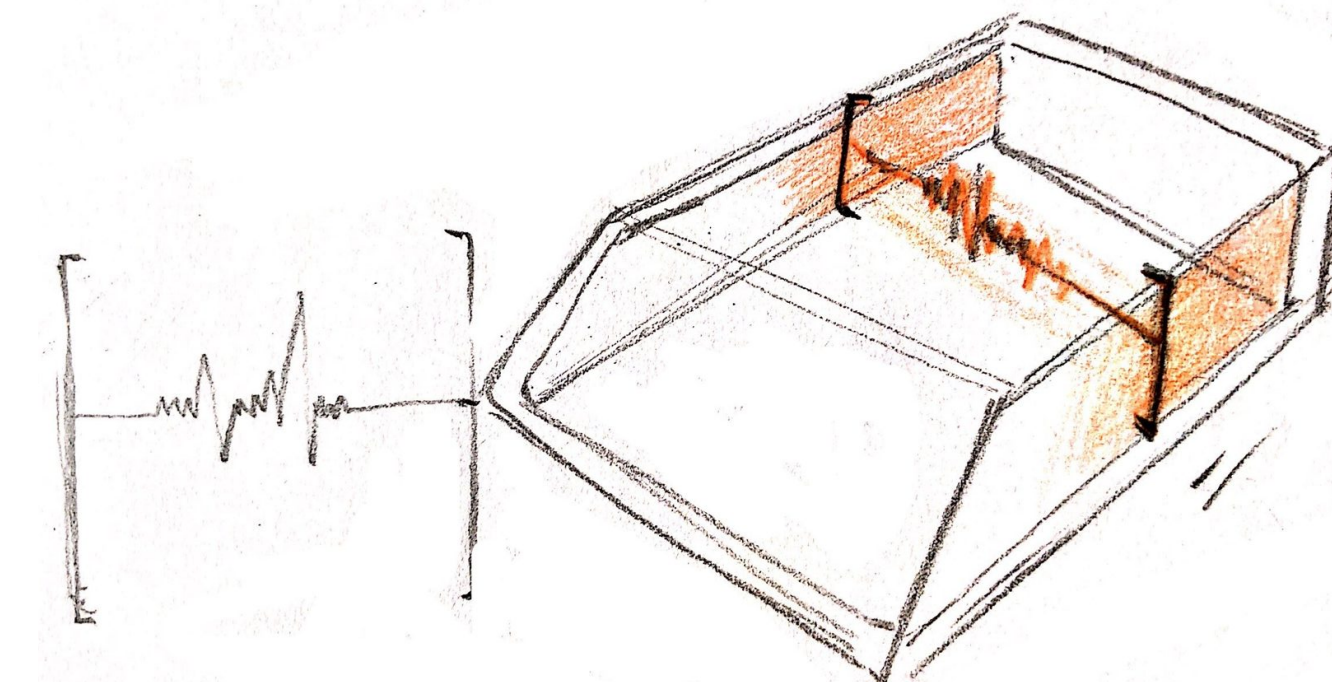

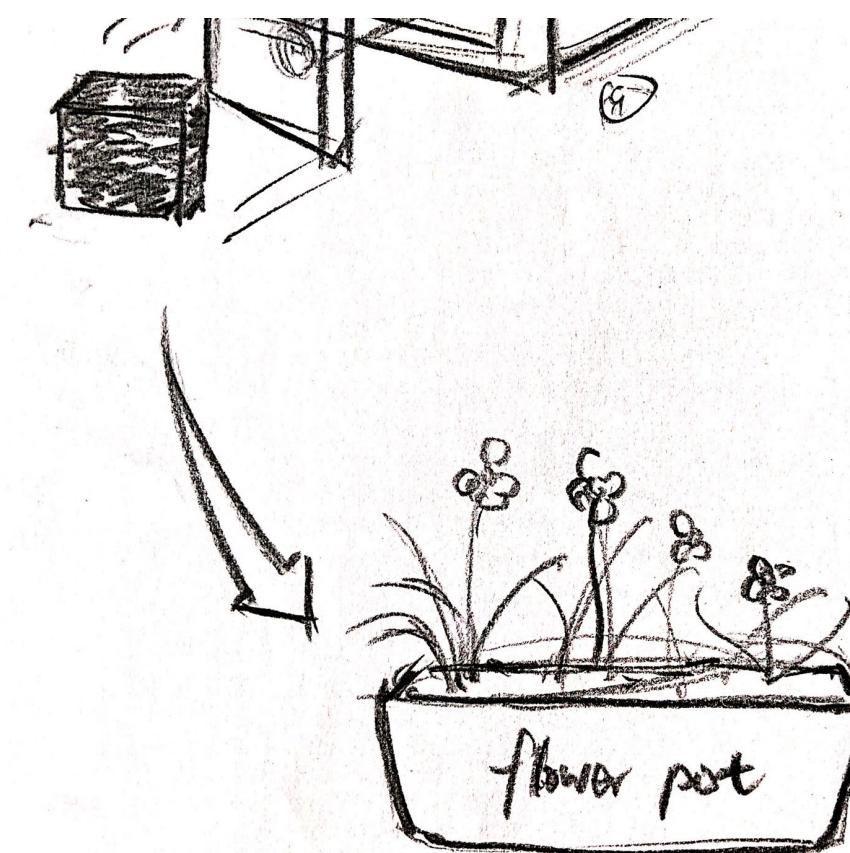

Multifunctional assistant, it can do a variety of tasks in the family.

-the physical/interactive/economic/social/etc implications of your robot's changes.

Reduce the purchase of organic fertilizers
